

Uploading via Web Interface

iSpring Cloud also allows you to upload any type of content directly through the web interface.
To upload content to iSpring Cloud from the web interface:

Repository ▾

Use this page to share files.

Upload

New ▾

<input type="checkbox"/>	Name ▾	Access	Views
<input type="checkbox"/>	 IMG_20160509_194128.jpg		0
<input type="checkbox"/>	 iSpring Suite 7 Overview.pptx		0

1. Click **Content** in the main menu and you will see the Content List page with a list of the entire account content.
2. Use the **Upload** button to open the "Browse..." dialog.
3. Select a file or multiple files to upload and click **Open**.

A progress bar will be displayed while the files are uploading. If content uploading through the web interface fails, please refer to the [iSpring Knowledge Base](#), [iSpring Community Forum](#) or contact our [Support Team](#).
