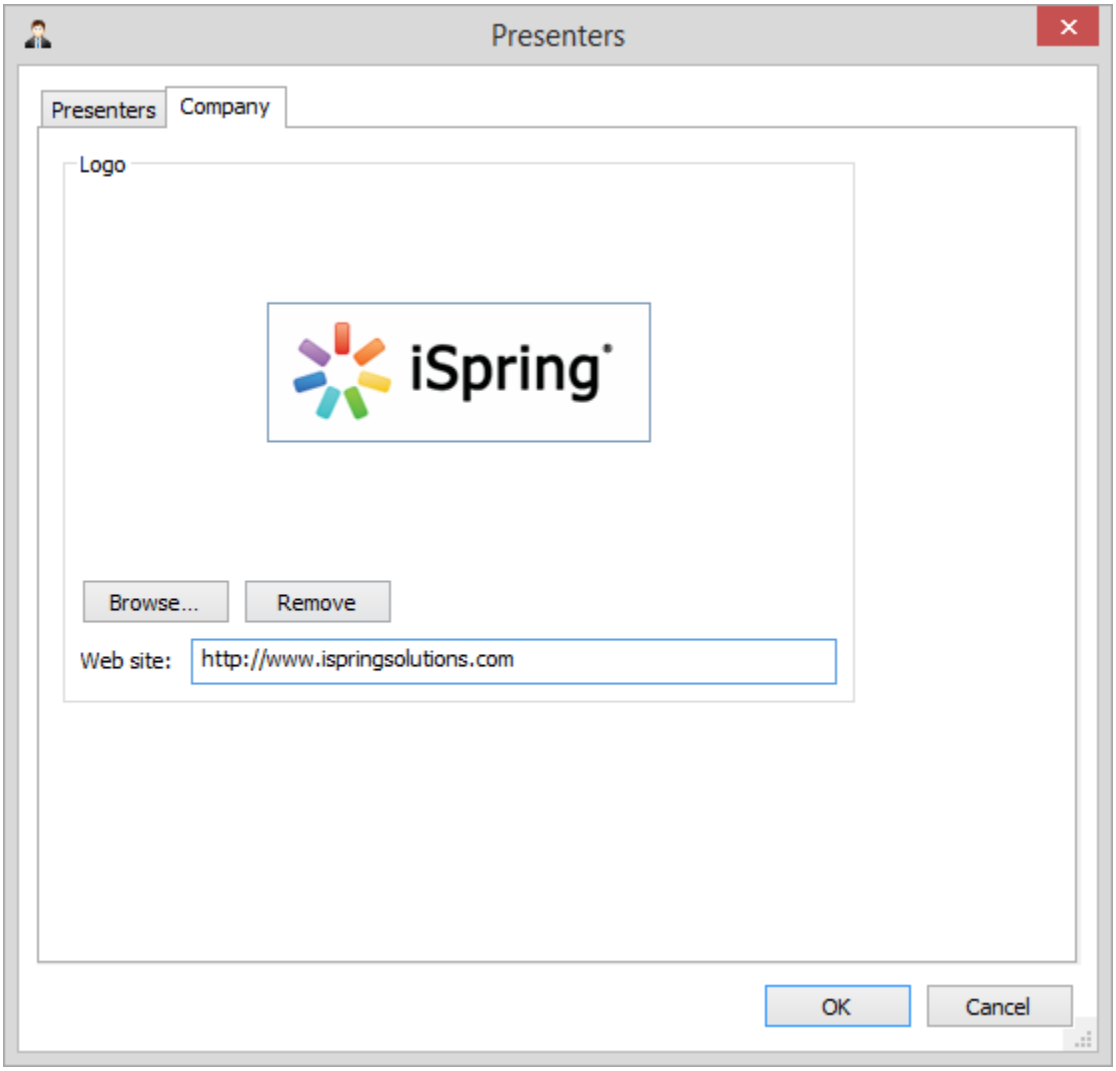
Managing Company Info

The Company Tab allows you to brand your presentation with your company logo and publish a link to your company web site.



To add info about your company:

1. Click the **Presenters** icon on the iSpring toolbar.
2. On the Presenters window, select the **Default Company** tab.
3. Customize the following options: company logo and company web site.

Company Info	
Company Logo	Click the **Browse** button and select your company logo. iSpring supports all popular image formats: .JPG, .PNG, .GIF, . BMP, .WFM, .EMF.
Company Web site	Enter your company's web site URL to let your viewers open your web site by clicking your company logo. The field is prefilled with "http://"; please be sure to keep it when adding a web site URL.
