

Assigning Presenters to Slides

To assign a Presenter to the selected slide, double-click **Presenter's photo** or click his or her name and select a different one from a drop-down list of available Presenters.

By default, a Presenter marked as **Default** is added to all slides in your presentation. To change a default Presenter, click the [Presenters](#) icon on the iSpring toolbar.

The screenshot displays the iSpring Presentation Explorer window. The top toolbar includes icons for Save & Close, Hide Slide, Promote/Demote, On-Click/Auto, Slide Duration, Branching, Lock, and Presenter/Layout settings. The main table lists slides with columns for #, Title, Advance, Branching, Lock, Presenter, and Layout. Slide 2 is selected, and its presenter is Melany Wil... (Melany Wilkinson). A red callout points to the Presenter dropdown menu, stating "Choose a presenter for the selected slides". Another red callout points to the Presenter photo in the row, stating "Double-click and choose a presenter for a slide".
