

Starting Trial of iSpring Pro

You can start using the trial version of iSpring Pro right away after installation. The trial version of iSpring Pro is the best way to evaluate all features of the product. This fully functional version produces content of the same quality as the full version. You can use the trial for 14 days. After the trial period is over, you will need to activate the product with the license key, received after the purchase.

The Trial Version Limitations

The only limitations of the trial version are a 14-day limit and an evaluation banner covering a part of the presentation area as you can see in the picture below.

To start using iSpring Pro without any trial limitations, you need to [purchase a license and activate it](#).
