# Narration Editor

Narration Editor is a convenient tool to synchronize your presentation with an imported or recorded video and audio.

To open the Narration Editor:

- Click the **Manage Narration** button on the toolbar.

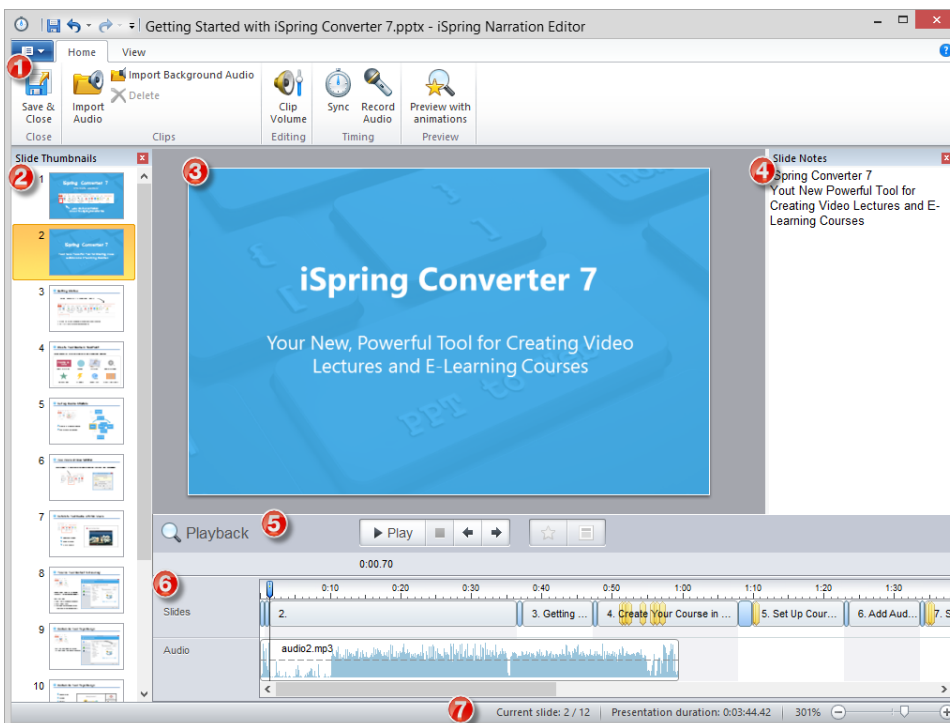

- The Narration Editor window will open.

Table 1. Narration Editor

Area	Description
1	The toolbar gives access to most functions of Narration Editor.
2	This pane shows the list of slides in your presentation.
3	This is where the current slide is shown.
4	This pane shows presentation notes. If you edit your notes here, they will be updated in your presentation after you click **Save** and **Close**.
5	This pane contains buttons to control presentation playback.
6	This is the main part of the narration editor, where you can sync audio clips with your slides.
7	The status bar contains info on the total number of slides, presentation duration and zoom pane.
