## **Inserting Flash Movies**

The Insert Flash feature allows you to easily insert external Flash movies into your PowerPoint slides.

You can import .swf or .flv files to the slide.

Dialogue in the office - PowerPoint

To insert a Flash movie, follow these steps:

- 1. Click the Flash Movie button on the iSpring toolbar.
- Choose a Flash file to be inserted into the presentation and click Open.
  Preview and edit the selected Flash file in the Insert Flash Movie window. For more details, see Flash Movie Options below.
- 4. Click **OK** to add your Flash Movie to the slide.

	Insert Flash Movie	- • ×

	The «Bank Employee» Learning Game	
	Hello. My name is Kate. Let's take the "Bank Employee" learning game together! Next	
	слайды	
C Replay Settings		
Start playback:	Automatically V	
Show after:	0 seconds	
	OK	Cancel

You will see the first frame of an .swf file or a static placeholder if you added an .flv file. The inserted Flash movie can be easily resized and moved within the slide.

Settings	Description
Change movie	This option allows you to navigate to your Flash file and replace the existing one.
Start playback	This options allows you to set the Flash Movie to play automatically or on a mouse click.

Show after	This option allows you to specify when your Flash Movie will appear on a slide. The default delay is 0 seconds, which means that a Flash
	Movie appears immediately.
