Duplicating Images and Equations

You can duplicate images, equations, and characters added to a slide in Slide View.

To copy an image or equation:

1. Select one or multiple images and equations on the slide.
   To select several items, click them while holding down the **Shift** or **Ctrl** button or select the area with the objects.
2. Right-click the selected objects and choose one of the actions in the menu: **Copy**.

The action will be applied to the selected images or equations. Then click **Paste** and the copied image will get pasted.
