

# Quiz Properties

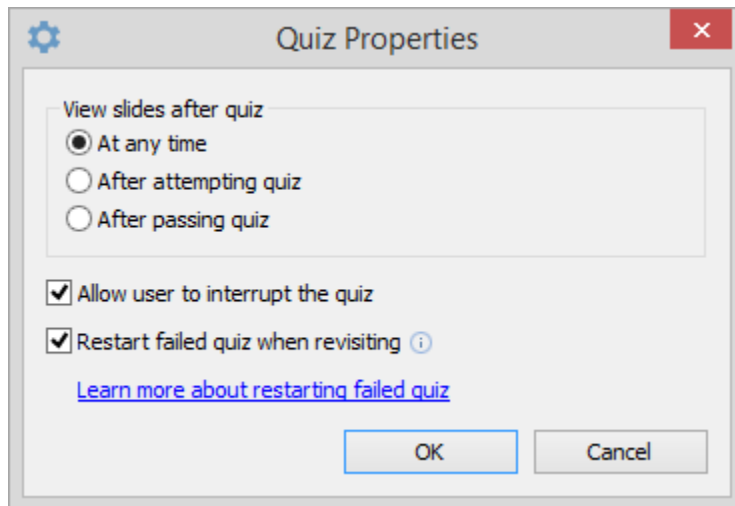

If you added a quiz to your course, the **Add Quiz** plus icons will be replaced with the **Quiz** menu. In the **Quiz Properties** window, you can allow or prevent users from viewing presentation's content after the quiz slide.

To edit quiz properties:

1. Click the **Quiz** button in the Object column
2. Select the **Properties** option in the drop-down menu

In the **Quiz Properties** window you can specify when a user will be able to view slides after the quiz.

Quiz properties	
View slides after quiz	<div>Specify when users are allowed to view slides after the quiz:</div> <ul style="list-style-type: none"><li>• At any time</li><li>• After attempting the quiz</li><li>• After passing the quiz</li></ul>
Allow user to interrupt the quiz	<div>If this checkbox is selected, the user will be able leave the quiz and proceed to another slide.</div>
Restart failed quiz when revisiting	<div>This option makes a quiz refresh each time a user comes back to a slide with the failed quiz. Use this option to make users retake the theoretical material and give them a fresh start the next time they open the quiz.</div>
