To package a presentation for a learning management system:

- 1. Type a name for your output Flash or HTML5 file in the **Presentation title** field.
- Specify a local folder or a network share, to which you want to save the presentation, in the Local folder field:

   type a path to the destination folder manually, or
  - click the Browse button on the right of Local folder field, browse for the folder, select it and click OK.
- 3. Configure Learning Course settings.
- 4. Click the **Publish** button to publish your presentation.

When the Publish process is complete, a new window that shows a preview of your presentation will open.
