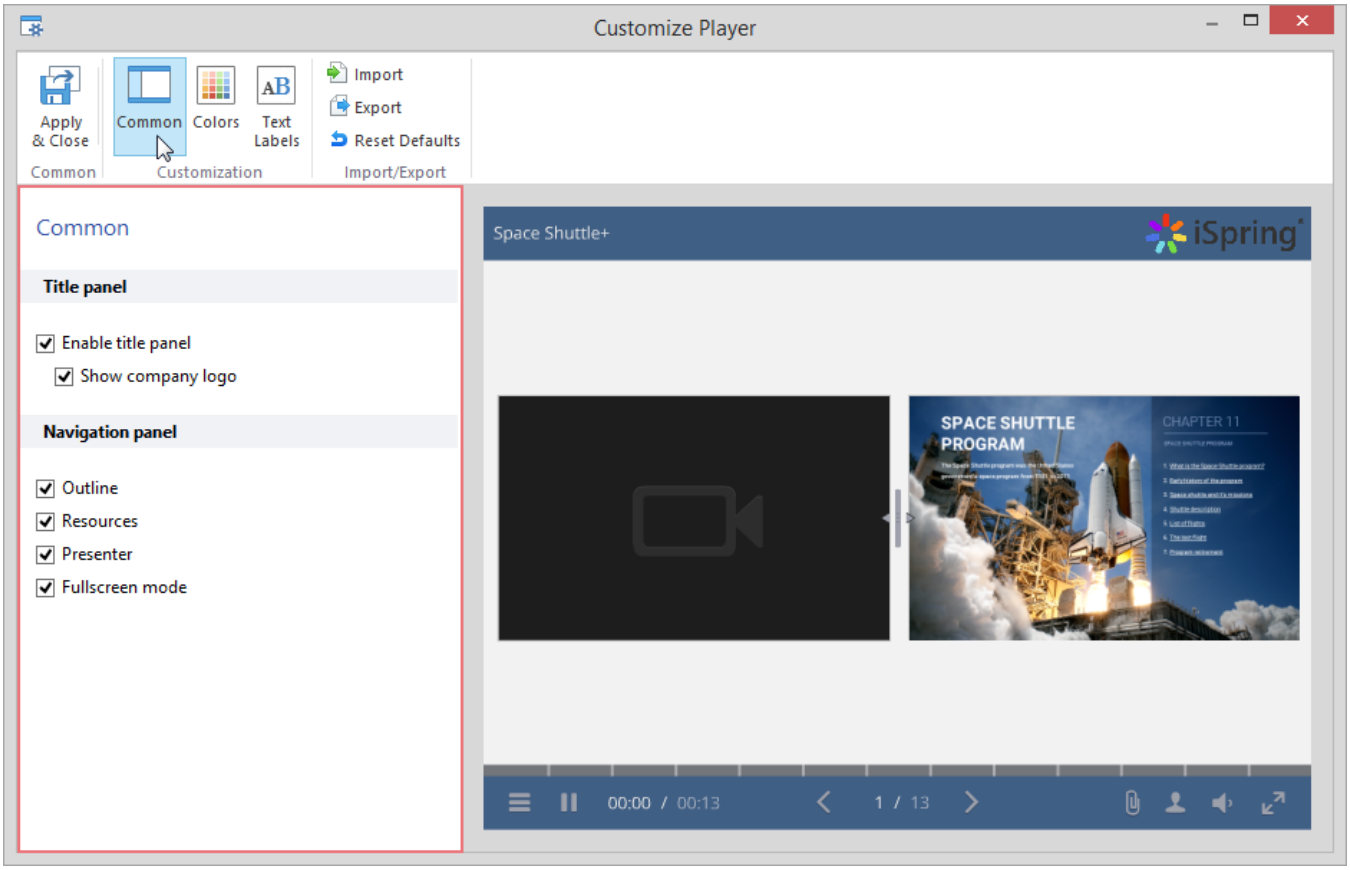
Configuring the Title and Navigation Panel

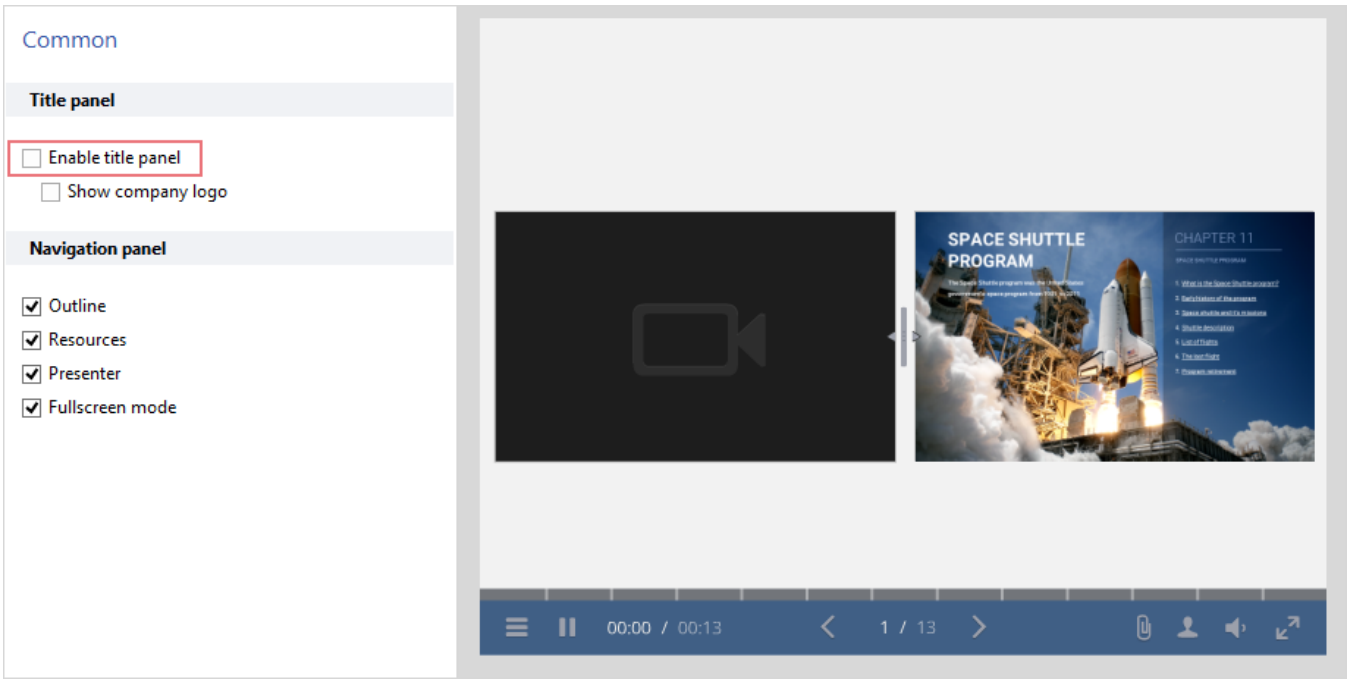
The **Video Lecture Player** allows adding buttons to its navigation panel and hiding the top bar info. To make the changes, go to the **Customize Player** window and click **Common** on the toolbar .



- Hiding the Top Panel
- Adding a Company Logo
- Customizing the Navigation Panel

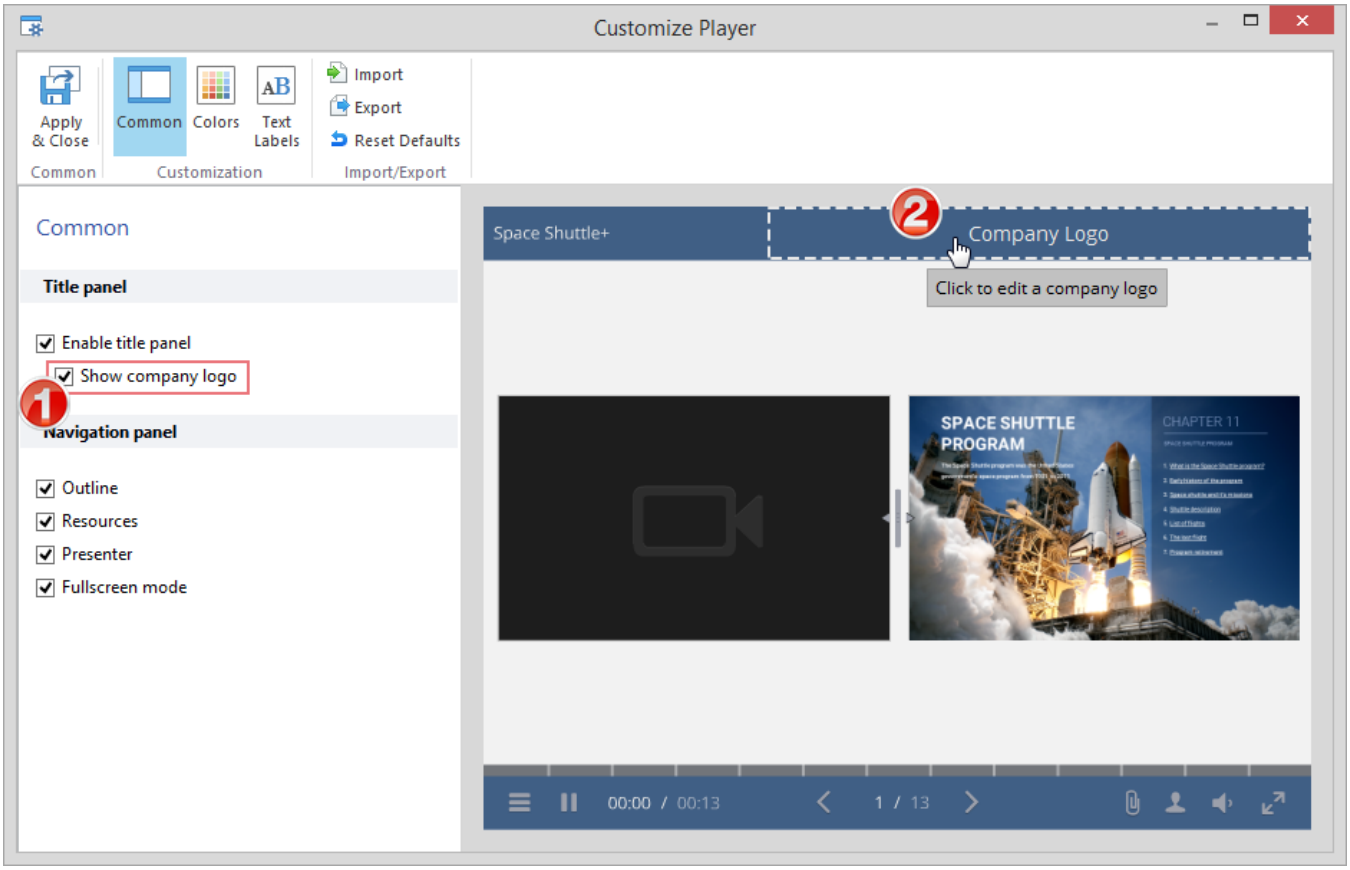
Hiding the Top Panel

Clear the **Enable title panel** checkbox to hide the top panel along with all the info on it (title and company logo).



Adding a Company Logo

To add a company logo:

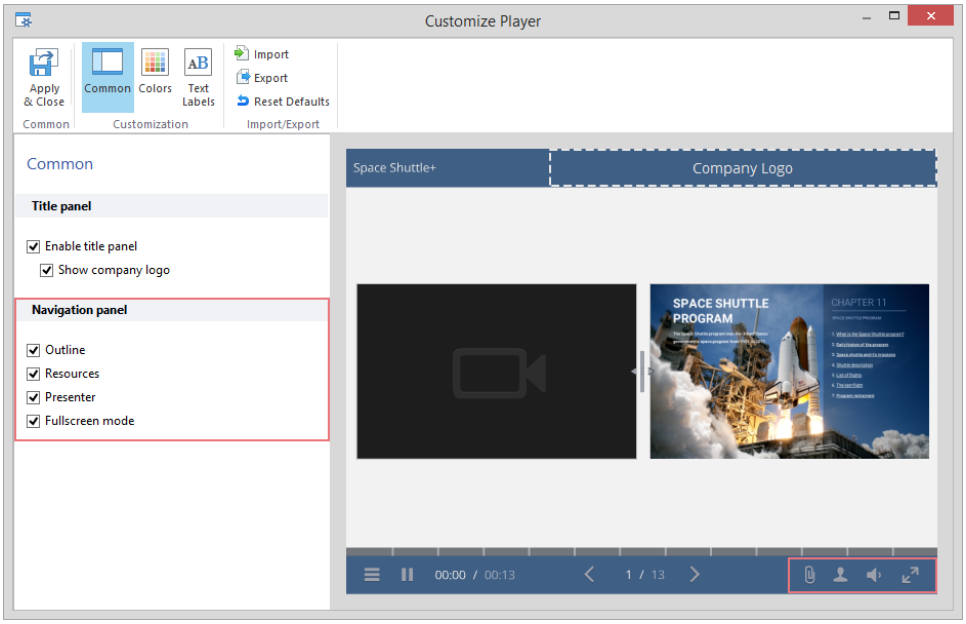


1. Make sure the **Show company logo** checkbox is selected
2. Click the **Company Logo** area right in the Preview. The **Presenters** widow will open.
3. Choose an image for your logo by clicking the **Browse**... button in the Presenters window
4. Click **OK** to add logo to the top panel.

Customizing the Navigation Panel

To customize the navigation bar of the Video Lecture player:

- Select or clear the checkboxes to enable or disable the buttons on the bottom navigation bar.



The navigation bar may contain the following buttons:

Outline	Displays a list of all slides in your presentation.
Resources	Lists all attachments and links added to a presentation. See Managing External Resources to learn how to add file attachments and web links to a presentation.
Presenter	Displays presenter information
Fullscreen mode	Adds the **Fullscreen** button to the bottom bar to switch between the full screen and standard display modes.
