

iSpring Cam Settings

To edit the iSpring Cam Settings, click on the **Settings** icon on the toolbar.

In the Settings window, you can customize the shortcuts, enable sound recording, and change the mouse cursor options.

Option	Description
--------	-------------

Shortcuts	<p>You can assign any custom shortcut key to manage the recording or use the default program shortcuts.</p> <ul style="list-style-type: none"> • F9 - Pause/Resume recording • Esc - Stop recording • F10 - Cancel recording
Microphone	If you want to record sound from your microphone, select the Microphone checkbox.
Record system sounds	If you want to record system sounds from your computer, select the Record system sounds checkbox.
Open new windows into recording area	All new windows will open inside the recording area. It is useful if you demonstrate a software that includes multiple windows or use multiple monitors.
Show system tray icon	If you check this option, the iSpring Cam icon will be displayed in your system tray while you are recording.
Show mouse cursor	You can check this option if you want the mouse cursor to be displayed in your screen recordings.
Highlight mouse cursor	<p>You can turn it on to highlight the mouse cursor.</p> 
Enable mouse click sounds	You can turn it on and off to enable or eliminate the mouse clicking sound while recording your screen.
