Updating a Content Item

You can update a content item by sending the POST request to the following URL: **/content/<content_item_id>.**

Permission to run the request: Account Owner, Administrator, Organization Administrator, Publisher.

Request Headers

Parameter	Description
X-Auth-Account-Url (required)	Base URL of the account, e.g. http://myaccount.ispringlearn.com
X-Auth-Email (required)	Administrator/Publisher e-mail address.
X-Auth-Password (required)	Administrator/Publisher password.
X-Title (required)	A title of the specified content item.
X-Description (optional)	A description of the specified content item.

After the request has been completed, the system returns the response with Code 200.

Possible Response Codes

Code	Text	Description
404	Unknown content item	The specified content item was not found.
400	Bad Request	The system failed to process the request, because it did not contain all necessary parameters.
403	Duplicated title	A content item with the specified title already exists.
200	Ok	The specified content item has been updated.
