

Getting User Portal Settings

You can get the settings of User Portal by sending the GET request to the following URL: **/account/user_portal**.

Permission to run the request: Account Owner, Administrator.

Request Headers

Parameter	Description
X-Auth-Account-Url (required)	Base URL of the account, e.g. http://myaccount.ispringlearn.com
X-Auth-Email (required)	Administrator e-mail address.
X-Auth-Password (required)	Administrator password.

After the request has been completed, the system returns the response with Code 200. The body of the response will contain xml data with User Portal settings.

Possible Response Codes

Code	Text	Description
403	Permission denied	You have no permission to get the setting of User Portal. Only Account Owner and Administrator have permission to send the request.
200	Ok	The request has been processed successfully.

Sample Request

```
GET /account/user_portal HTTP/1.1
Host: api.ispringonline.com
X-Auth-Account-Url: http://myaccount.ispringlearn.com
X-Auth-Email: email@email.com
X-Auth-Password: password
```

Sample Response

```
HTTP/1.1 200 OK
Connection: close
