# Audio Editor

iSpring TalkMaster features the new built-in **Audio Editor**. It allows you to adjust your audio narration right within your iSpring program. You don't have to use any third-party software to trim clips, remove noise or apply fade effects.

To access the Audio Editor:

1. Add Audio to a scene in the Voice Over mode.
2. Click **Edit** on the toolbar

Now, you can enjoy all its new capabilities:
