# Adding Silence and Silencing a Part of a Clip

To insert some seconds of silence at any place of your audio:

1. Put the cursor where you'd like to add silence
2. Click the **Silence** button on the toolbar or hit **Ins** on your keyboard.

As the result, you will see the dialog box where you can indicate the silence duration (in seconds and milliseconds). When you click **OK**, the silence will be added to the selected place.
