

Getting Content Item Info

You can obtain information about a content item by sending the GET request to the following URL: `/content/<content_item_id>`.

Permission to run the request: Account Owner, Administrator, Organization Administrator, Publisher.

Request Headers

Parameter	Description
X-Auth-Account-Url (required)	Base URL of the account, e.g. <code>http://myaccount.ispringlearn.com</code>
X-Auth-Email (required)	Administrator/Publisher e-mail address.
X-Auth-Password (required)	Administrator/Publisher password.

After the request has been completed, the system returns the response with Code 200. The body of the response will contain xml data with content item info.

Possible Response Codes

Code	Text	Description
404	Unknown content item	Content item with the specified ID was not found.
200	Ok	The request has been processed successfully.

Sample Request

```
