

# Adding Hyperlinks

To add a hyperlink:

1. Select the text that you want to convert to a hyperlink.
2. Click the **Hyperlink** button on the editor toolbar.
3. Choose a hyperlink type using the radio buttons.

The screenshot shows a dialog box titled "Edit Hyperlink". It has a close button (X) in the top right corner. The "Text to display:" field contains the text "RSS". Below this, under the heading "Link to:", there are three radio buttons: "Web page" (which is selected), "Item", and "Email". Below the radio buttons is an "Address:" field containing the URL "http://en.wikipedia.org/wiki/RSS". To the right of the address field are two buttons: "Test" and "Remove Link". Below the address field is a checkbox labeled "Open in a new browser window" which is checked. At the bottom of the dialog are two buttons: "OK" and "Cancel".

4. Click **OK**.

Link Type	Description
Web page	Enter a web page address in the corresponding field. You can check if a link works correctly by clicking the <b>Test</b> button (the program will open the URL in your default web browser). You may also find the <b>Open in a new browser window</b> option helpful. If you leave it unchecked, a click on a link will open a target page in the same window with your quiz.
Interaction Item	Choose an item from the drop-down menu.
Email	Type an email address in the corresponding field.

## Removing Hyperlinks

To remove a hyperlink:

1. Click the hyperlink in the text.
2. Click the **Hyperlink** button on the editor toolbar.
3. Click the **Remove Link** button.

 **Edit Hyperlink** ✕

Text to display:

Link to:

- Web page
- Item
- Email

Address:

Open in a new browser window
