

Adjusting Slide Duration

You can set timing for automatic slide advance in the field to the right of the slide advance type. It's also possible to specify duration for a selected group of slides in the corresponding text field on the toolbar.

Time formatting works similar to PowerPoint.

Note: Slide advance time also depends on "Minimal slide duration" that can be specified on the Playback and Navigation tab of the Publish window.

The screenshot shows the 'Presentation Explorer' window. The toolbar at the top includes buttons for 'Save & Close', 'Hide Slide', 'Promote Demote', 'On-Click', 'Auto', 'Slide Duration' (set to 00:10.00), 'Branching', and 'Lock'. Below the toolbar is a table of slides with columns for '#', 'Title', 'Branching', 'Lock', 'Presenter', and 'Layout'. Slide 2 is selected, and its duration is 10.0s. A red callout points to the 'Slide Duration' field in the toolbar, and another red callout points to the '10.0s' duration field for slide 2.

#	Title	Branching	Lock	Presenter	Layout
1	PowerPoint to Flash Excellence	Default		None	No Change
2	Animations: Entrance Effects	Default		Geoseffe T...	Full
3	Animations: Exit Effects	Default		Geoseffe T...	Maximized Video
4	Animations: Emphasis Effects	Default		Geoseffe T...	Maximized Video
