

# Answer Columns

By default, all answers are put in a single column. You can easily split the answer alternatives into multiple columns.

To divide answer choices into columns:

- Select the number of columns in the **Answer Columns** menu.

Answer choices will be divided into the selected number of columns and will be distributed evenly across the answers area.

The Answer Columns option is accessible in the following assessment forms: True/False, Multiple Choice, Multiple Response, Yes/No, Pick One, Pick Many.
