

# Profile Settings

In the Profile Settings area, you can upload your personal photo and account password.

To open it, click the **Settings** link in the main menu and choose the **Profile** tab.

The screenshot shows the iSpring Cloud interface. On the left is a dark sidebar with the iSpring Cloud logo at the top, followed by 'Content' and 'Settings' (which has a mouse cursor over it). The main content area is titled 'Profile Settings' and has a user profile picture in the top right corner. Below the title are three tabs: 'Account', 'Profile' (which is selected), and 'Billing'. A blue 'Save changes' button is located in the top right of the main content area. The main content area contains the following sections:

- A heading 'Profile Settings' with a sub-heading 'Your photo:' followed by a circular profile picture of a man. To the right of the photo is the text: 'This photo is your identity and appears in your profile. You may upload JPG, PNG or GIF image. Each side of it should be from 75 to 4000 pixels.'
- A heading 'Change Password' followed by three input fields labeled 'Current password:', 'New password:', and 'Confirm:'. Below the 'Current password:' field is the text: 'Your current password is required to change your password.'
