

# Previewing Published Quizzes

When the Publish process is complete, a new window that shows a preview of your quiz will open. The preview window includes a toolbar and a live preview area.

The screenshot shows a window titled "Quiz Preview" with a toolbar at the top. The toolbar includes buttons for "Desktop" (Device), "View in Browser" (Open), "Open Folder", "Attach to Email" (Share), "Upload to FTP", and "Refresh". Below the toolbar, the question is displayed on a green background. The question is "Question 3 of 10" and has a point value of 10. The total points for the quiz are 0 out of 100. The question asks: "Which formula should be used to calculate the area of a right triangle?" To the right of the question is a diagram of a right-angled triangle with a horizontal base of length 'a', a vertical height of length 'b', and a hypotenuse of length 'c'. The angle at the bottom-left vertex is labeled 'β' and the angle at the top-right vertex is labeled 'α'. Below the question are four multiple-choice options, each with an unchecked checkbox:

- $A = b^2 \times \frac{\text{tg}(\alpha)}{2}$
- $A = a^2 \times b$
- $A = \frac{a^2}{2\text{tg}(\alpha)}$
- $A = \frac{a \times b}{2}$

A "Submit" button is located at the bottom right of the preview area.

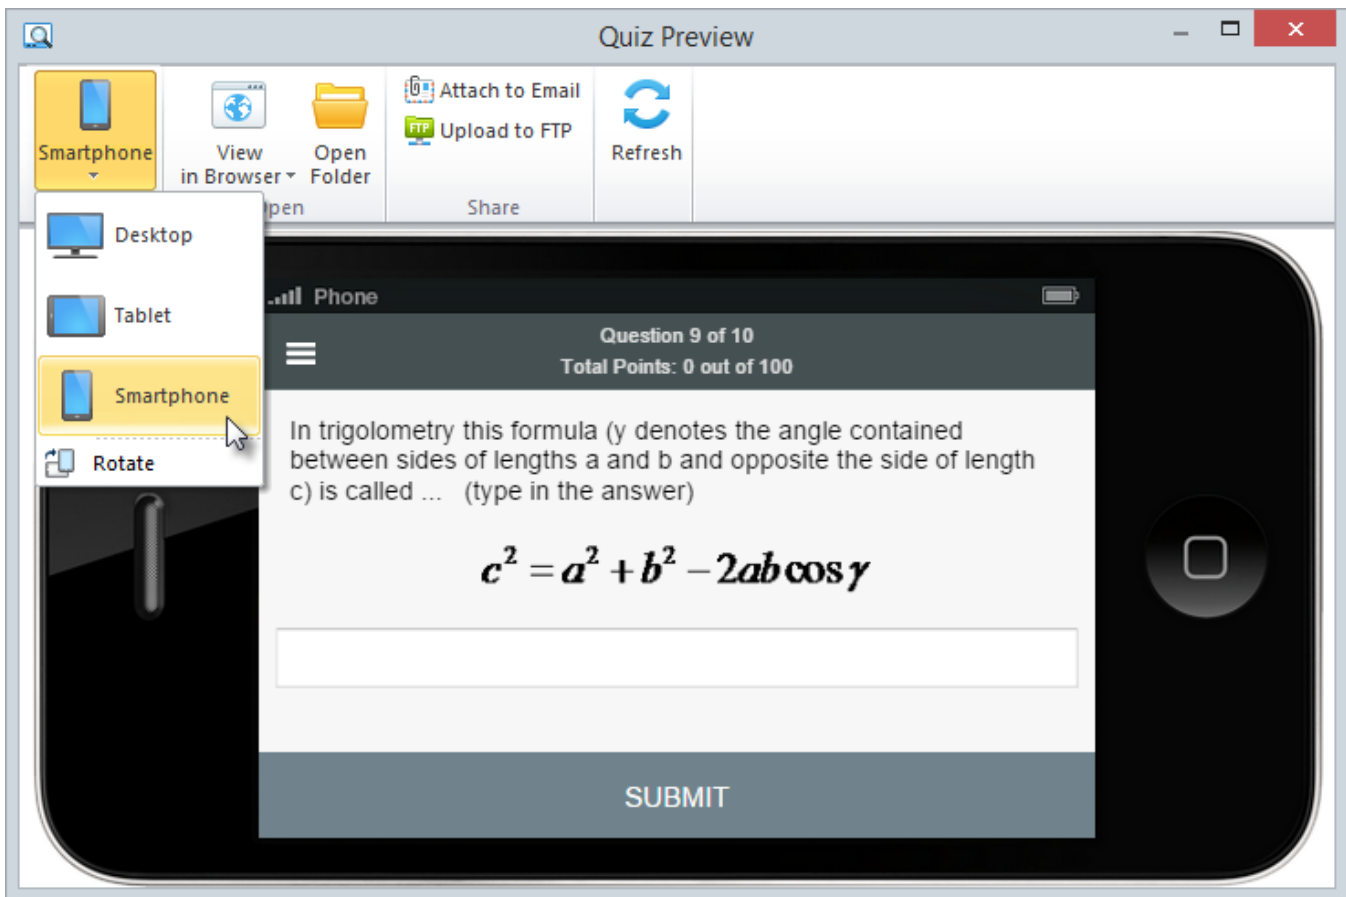

By clicking the corresponding buttons on the toolbar, you can:

- [Preview your quiz on any device](#)
- Preview your quiz in any browser
- Access the folder with the quiz files
- [Send a quiz to a Web server via FTP](#)
- [Email a quiz](#)
- Refresh the content in the preview area

## Choosing a device for previewing

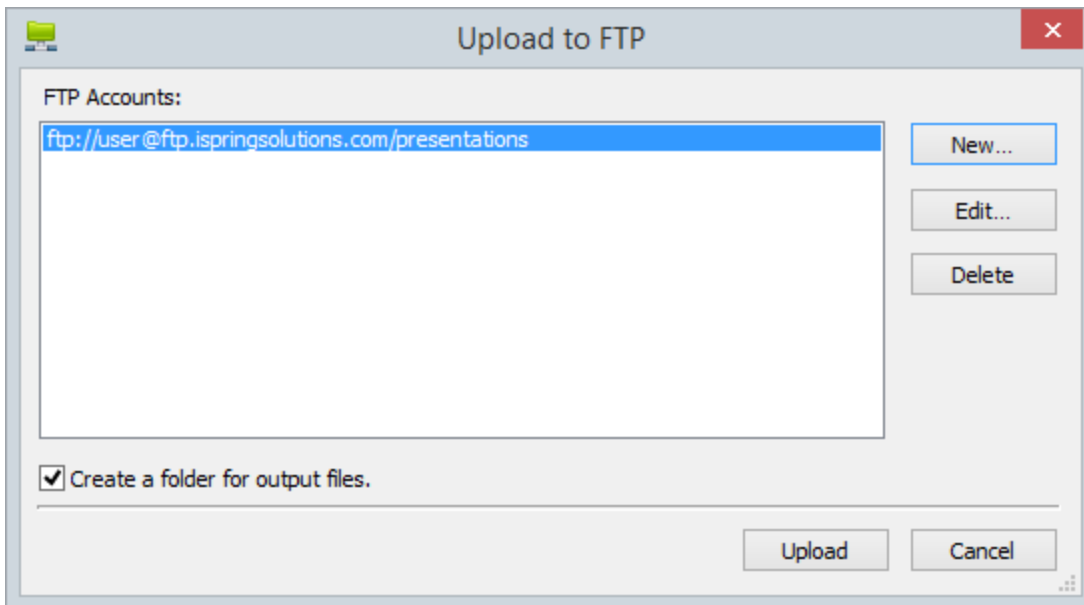

With this option you can preview the quiz on a device of your choice without uploading it to the Internet. Click the **Device** button and choose the device needed. By clicking the **Rotate** button you can also change the device orientation.

**Note:** You can choose the device only when publishing to either HTML5 or Combined format.

## Uploading Quizzes to FTP

1. Click the **Upload to FTP** button on the toolbar. You will see a window where you can add, edit and delete FTP accounts.
2. Select the 'Create a folder for output files' checkbox to create a new folder with the presentation name on your server.

To create a new FTP account, you need to click the **New** button and fill out the form shown below:

FTP Account	
<b>Host name</b>	A host name (e.g. mysite.com) or an IP address (e.g. 77.77.55.88) of the web server where the quiz will be uploaded to.
<b>Port</b>	FTP servers generally use Port 21, but sometimes the port number may differ. For more information, contact your network administrator.
<b>Use encrypted connection via SSL/TLS</b>	The program will establish a secure connection with a server using FTP with TLS/SSL (FTPS).
<b>Folder on FTP server</b>	A path to the folder on the FTP server.
<b>User name</b>	If anonymous access to the FTP is not allowed, type your user name.
<b>Password</b>	If anonymous access to the FTP is not allowed, type your password.

## Sending Quizzes via Email

If you want to send your quiz via email, click the **Attach to Email** button on the toolbar.

A new email with the quiz attached to it will be created by your default email client. You can specify the email address of the recipient and send it.
