

# Adding Silence and Silencing a Part of a Clip

To insert some seconds of silence at any place of your clip:

1. Put the cursor where you'd like to add silence
2. Click **Silence** on the toolbar or hit **Ins** on your keyboard.  
or  
Choose **Insert Silence** in the Silence menu.

As the result, you will see the dialog box where you can indicate the silence duration (in seconds and milliseconds). When you click **OK**, the silence will be added to the selected place.

## Silencing a Part of a Clip

Sometimes you might need to silence a section of your audio file. It is useful if you have both presenter and background audio in your presentation and want to hear only one audio stream.

1. Select the audio part on the timeline
2. Silence it by clicking **Silence** on the toolbar (or **Ins** on the keyboard).  
or  
Choose **Silence Selection** from the Silence split menu.
