Field ID

Under the field name, you can find the Field ID.

Users	Groups	Organizations	User Profile Fields
Use this page to customize fields that should be included in user profiles. 'Password' is a required not customizable field.			
Field Name	Field Type	Active	Required
 First Name FIRST_NAME	First Name	<input checked="" type="checkbox"/>	<input type="checkbox"/>
 Last Name LAST_NAME	Last Name	<input checked="" type="checkbox"/>	<input type="checkbox"/>
 Email EMAIL	Email	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
 Job Position USER_DEFINED_FIELD1	List	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
 Country COUNTRY	Country	<input checked="" type="checkbox"/>	<input type="checkbox"/>

The Field ID can be used as a variable in certificates and emails. It is automatically replaced with the variable value when a user opens a certificate or an email.

You can specify any Field ID for all new custom fields that you created.

The screenshot shows a configuration interface for a field. At the top left, there is a four-way arrow icon. To its right is a text input field containing 'Job Position'. Further right is a dropdown menu with 'List' selected. To the right of the dropdown are two checked checkboxes. At the top right are two buttons: a green 'Save' button and a white 'Cancel' button. Below the 'Job Position' field is a text input field containing 'JOB_POSITION' with a cursor at the end. To its right is a small grey information icon. Below that is a text area containing 'Manager, Intern'.

For the pre-set fields like First Name, Last Name, Email, Country, the Field ID cannot be changed.

When you insert variables in the emails, use % sign before and after the variable (%FIRST_NAME%).

To learn more about using variables in certificates, please read the [Creating a certificate](#) article.
