

# Book Properties

To modify the Book properties, click the **Properties** button on the toolbar.

The Book properties will open up in a new window. Here you can change the default fonts of your Book interaction.

In the Book player skin, you can toggle the navigation panel display on and off. If the '**Enable page thumbnails**' options is off, the published book will be displayed without top navigation panel.

Property	Description
<b>Enable page thumbnails</b>	Check this box if you would like to allow navigation through page thumbnails.

## Colors

Choose one of the predefined color schemes or click the **Customize** button and fine-tune the colors manually.

Customize Colors
