

Adjusting Color Scheme

You can make your quiz stand out by customizing colors of the player. You can choose the colors matching with your PowerPoint presentation theme in case your quiz is a part of a presentation or use your corporate colors.

Customizing Color Schemes

To customize colors of the player:

- Click **Colors** on the toolbar.
- Choose a color scheme or manually specify a color for each element.

The player comes with several predesigned color schemes. To choose a color scheme, choose a scheme from the **Color scheme** drop-down menu.

To change a color of any element of the player:

1. Click the color button next to the element, which color you want to change.
2. In the **Choose a color** window, select a color using the color picker or enter the color code into the corresponding field.

As you pick a color, the preview pane in the upper-right corner will show both the old and the new colors. The new color will be automatically applied to the player element in the preview mode. If you want to revert to the old color, click it in the preview pane or click **Cancel**.

3. Click OK to save the changes.

Tip: You can copy colors of other elements by dragging a color box with the color you need and dropping it to the color box of the element, which color you want to change.

Saving a Color Scheme

Once you are satisfied with your color scheme, you can save it for future use.

To save a color scheme:

1. Click the **Save As** button.
2. Enter a name of the new color scheme.
3. Click the **Save** button.

Your color scheme will be added to the **Color scheme** drop-down menu.

Removing a Color Scheme

To remove a color scheme:

1. Choose a color scheme in the **Color scheme** drop-down menu.
2. Click the **Delete** button.
3. Click **Yes** to confirm the deletion.

Transparency Options

Finally, you can enable transparency for the player and slide background.

Options	Description
Make background transparent	Use this option to make the slide area transparent. If your quiz is inserted into PowerPoint presentation, you will see the presentation background.
Make player transparent	Activate this options to hide the quiz player and player border. The player area around the slide will be 100% transparent. Tip: You can hide extra details on the top panel to create a typical quiz, knowledge check or assessment that does not contain any additional info on the top panel. Deactivate the Question List and Question Info checkboxes in the Top Bar area.
