

Branding

On the **Account Branding** page, you can edit the look and feel of your iSpring Learn account by:

- [Choosing a Color Scheme](#)
- [Adding Account Logo](#)
- [Uploading a Favicon](#)

The screenshot shows the iSpring Settings interface. On the left is a dark sidebar with navigation items: Dashboard, Learning Paths, Content, Discussions, Reports, Events, People, Settings (highlighted), and Messages. The main content area is titled 'Settings' and has three tabs: 'Main', 'Branding' (selected), and 'Additional Options'. Below the tabs, there is a text box explaining that this is where account branding (design, styles, logo, favicon) can be configured. To the right of this text are two buttons: 'User Portal' and a green 'Save' button. The 'Color Scheme' section follows, with a heading and a sub-heading: 'Select one of our pre-built themes below or create your own custom theme to match your companies color scheme.' Below this is a 'Color Scheme' selector showing a row of color swatches (black, blue, green, brown, red, purple) and an edit icon. The 'Account Logo' section has a heading and a sub-heading: 'This logo will be displayed on all pages in your account above the main menu.' Below this is a preview of the iSpring logo on a dark background, followed by text stating that JPG, PNG, and GIF images are accepted and that the logo will be resized to fit within 250px wide and 64px tall.
