

Navigation

In this area, you can arrange the order of submitting questions and create a pool of questions.

The screenshot shows the 'Quiz Properties' dialog box with the 'Navigation' tab selected. The 'Quiz type' is set to 'Graded'. The 'Preset' is 'Linear / Branched Scenario'. Under the 'Navigation' section, 'Submit one question at a time' is selected, with 'Allow user to postpone questions' checked. 'Submit all at once' is unselected, but 'Allow user to finish without answering all questions' is checked. Under the 'Question Pool' section, 'Include all groups from the quiz' is selected, 'Select random groups' is unselected (set to 'All' out of 1), and 'Shuffle questions from the selected groups' is unselected. 'OK' and 'Cancel' buttons are at the bottom right.

Presets	<p>Choose one of the preset profiles from the drop-down menu:</p> <ul style="list-style-type: none"> • Linear / Branched Scenario • Submit all at once • Random Order • Custom
Submit one question at a time	Choose this option to receive a feedback message right away.
Submit all at once	Choose this option to receive total points at the end of the quiz.
Allow users to finish without answering all questions	Select this option if you want to allow quiz takers to interrupt a quiz. If you clear this checkbox, quiz takers will have to complete the quiz before they are allowed to finish it.

Include all groups from the quiz	Select this checkbox to present all groups of questions of your quiz to quiz takers (as opposed to showing a random groups).
Select random groups	Use this option to create a quiz with a pool of questions. When selected, only a specified number of groups will be presented to a quiz taker (as opposed to showing all the questions). In this case, you can add as many questions to your quiz as you want; every quiz taker will get the same specified number of different questions.
Shuffle questions from selected groups	Select this checkbox to randomize questions' order.
