

Editing Slide Titles

Titles of slides are shown in the Outline tab of the Universal player. By default, titles are taken from PowerPoint slide titles of the presentation. To change a slide title, click it and type a new one. The new titles will be displayed in your presentation navigation. They can differ from PowerPoint slide titles.

The screenshot shows the 'Presentation Explorer' window with a toolbar at the top and a table of slides below. The toolbar includes buttons for 'Save & Close', 'Hide Slide', 'Promote Demote', 'On-Click', 'Auto', 'Slide Duration' (00:05.00), 'Branching', 'Lock', 'Presenter' (None), and 'Layout' (No Change). The table has columns for '#', 'Title', 'Advance', 'Branching', 'Lock', 'Presenter', 'Layout', and 'Object'. Slide 1 is highlighted, and a red callout box points to its title 'PowerPoint to Flash Excellence' with the text 'Click to edit the title or press F2'.
