

# Graded Question Types

A graded question is a question that always has a correct answer(s) and usually has incorrect answer option(s) as well. Graded questions are used in quizzes to test knowledge retention, determine how a learner understands course material.

The table below lists all graded question types supported by iSpring QuizMaker.

Graded Question	Type	Description																																				
 <b>True/False</b>		<p>A student should define whether a statement is True or False.</p> <table border="1" data-bbox="389 493 1347 682"> <thead> <tr> <th>Correct</th> <th>Premise</th> <th></th> <th></th> </tr> </thead> <tbody> <tr> <td><input checked="" type="radio"/></td> <td>True</td> <td></td> <td><math>\alpha^2</math></td> </tr> <tr> <td><input type="radio"/></td> <td>False</td> <td></td> <td><math>\alpha^2</math></td> </tr> </tbody> </table> <p>Select the single correct option using the radio button.</p> <p>Note: You don't have to go with the default TRUE or FALSE. You may change the text of the answers - just click the option an</p>	Correct	Premise			<input checked="" type="radio"/>	True		$\alpha^2$	<input type="radio"/>	False		$\alpha^2$

### Type In

A student should type an answer in the text field.

Acceptable answers		+
...	organize	✕
...	organized	⬆
Type to add a new item		⬇

You can specify more than one acceptable answer. For example, for the question 'What is the star of our system' you can specify correct answers.

Note: By default answers are case-insensitive. You can switch option to case sensitive.

### Matching

A student should match pairs of words, phrases or images.

Premise	Response	+
Great Britain  $\alpha^2$	London  $\alpha^2$	✕
France  $\alpha^2$	Paris  $\alpha^2$	⬆
Type to add a new item		⬇

Add several correctly corresponding pairs of words, phrases or images. They will be shuffled when displayed to a student.

### Sequence

A student should arrange items in the correct order.

Correct order		+
Item 1	 $\alpha^2$	✕
Item 2	 $\alpha^2$	⬆
Item 3	 $\alpha^2$	⬇
Type to add a new item		

Add answers and arrange them in the correct order. They will be shuffled when presented to a student.

### Numeric

A student should enter a correct number to answer this question type.

Acceptable Numeric Values		+
Value is:	Equal to = 0	✕
Value is:	Equal to = 75	⬆
Value is:	Between = 100	⬇
Value is:	Greater than	
Value is:	Greater than or equal to	

You can specify an exact number, or a specified range as a correct answer. Several possible answers can be set.

### Fill in the Blank

A student should fill in the blanks in a given text.

Province of Champagne in France is famous for its sparkling wine.

Champagne

Type a new item here

Insert Blank

Delete Blank

Type a text and replace some words with blanks. Then type correct answers in each blank. You can provide several correct answers by clicking the **Add a new item here** in the drop-down list.

Note: Answers are case insensitive. For example, there is no difference between **Sun** and **sun**.

Tip: If you select a word or a phrase and then click **Insert Blank**, the selected text will be converted into a blank with a correct answer.

### Multiple Choice Text

A student should select a correct answer from a drop down list with possible choices.

The sun is

Milk is

- yellow
- green
- blue

Type a new item here

Insert List

Delete List

Replace one or more words or phrases in the text with a drop-down list of possible answers using the **Insert List** button. Each two items. Select the correct item in the list using a radio button.

### Word Bank

A student should drag and drop words from a word bank into blanks in the text.

A fat  eats small .

Extra Items

- fish
- dog

Type a new extra item here

Insert Blank

Delete Blank

Clear Extra Items

Type a text and replace some words with placeholders. Then type correct answers in each placeholder. To make the task hard more words or phrases in the **Extra Items** list.

### Hotspot

A student should click on a correct area or several areas on an image.

Choose Image...

Add Hotspot

- Rectangle
- Oval
- Freeform

Remove Hotspot

Open an image and add one or several hotspots of rectangle, oval, or freeform. You can maximize the details area to work with Maximize button in the right upper corner.
