

Starting Trial of iSpring Cam

You can start using the trial version of iSpring Cam right away after installation. The trial version of iSpring Cam is the best way to evaluate all features of the product. This fully functional version produces content of the same quality as the full version. You can use the trial for 14 days. After the trial period is over, you will need to activate the product with the license key, received after the purchase.

The Trial Version Limitations

The only limitations of the trial version are a 14-day limit and an evaluation banner covering a part of the recording area as you can see in the picture below.

The screenshot shows the iSpring Cam interface. At the top, it says "iSpring Cam" and "Create Engaging Screencasts". In the top right corner, there is a logo that says "Created with iSpring Cam EVALUATION VERSION". The main area shows a laptop screen with a recording in progress. The recording area is partially covered by a banner that says "3" and "Press Esc when done recording". Below the laptop, there is a green button that says "Download for Free".

iSpring Cam is screen recording software for Windows that is made for easily creating, editing and sharing beautiful screencasts.

[Download for Free](#)

To start using iSpring Cam without any trial limitations you need to [purchase a license and activate it](#).
