

Adjusting Slide Duration

You can set timing for automatic slide advance in the field to the right of the slide advance type. It's also possible to specify duration for a selected group of slides in the corresponding text field on the toolbar.

Time formatting works similar to PowerPoint.

Note: Slide advance time also depends on "Minimal slide duration" that can be specified on the [Playback and Navigation](#) tab of the Publish window.

The screenshot shows the 'Presentation Explorer' window with a toolbar and a table of slides. The toolbar includes 'Save & Close', 'Hide Slide', 'Promote Demote', 'On-Click Auto', 'Slide Duration' (set to 00:06.50), 'Branching', and 'Lock'. The table has columns for '#', 'Title', 'Advance', 'Slide Duration', 'Presenter', 'Layout', and 'Object'.
