

System Requirements

In order to run iSpring Cam, your computer must meet the following system requirements:

Hardware	
Computer and processor	Intel/AMD 1 GHz or faster processor
Memory	4 GB RAM or higher
Hard disk	5 GB available disk space (to record a 30-minute screencast)
Display	1024x768 or higher resolution monitor
Video Card	512 MB of VRAM
Sound	Sound card and microphone (for recording narration)
Software	
Operating System	Microsoft Windows 10/8/7/Vista/XP(SP3) (32- and 64-bit editions)
Adobe Flash	Adobe Flash Player ActiveX 12 or higher

To install Adobe® Flash® Player ActiveX on your computer:

1. Open <http://www.adobe.com/go/getflash> in Internet Explorer. Be sure to use exactly Internet Explorer for this task, because other browsers will install a different plugin (not ActiveX).
2. Follow instructions on that page to install Adobe Flash Player ActiveX.
