

Adjusting Slide Duration

You can set timing for automatic slide advance in the field to the right of the slide advance type. It's also possible to specify duration for a selected group of slides in the corresponding text field on the toolbar.

Time formatting works similar to PowerPoint.

Note: Slide advance time also depends on "Minimal slide duration" that can be specified on the [Playback and Navigation](#) tab of the Publish window.

The screenshot displays the 'Presentation Explorer' window with a toolbar at the top and a table of slide details below. The toolbar includes buttons for 'Save & Close', 'Hide Slide', 'Promote Demote', 'On-Click', 'Auto', 'Slide Duration' (set to 00:11,57), 'Branching', and 'Lock'. The table lists five slides with their respective titles, durations, and settings.

#	Title	Advance	Branching	Presenter	Layout	Playlist
1	hidden iSpring Converter Pro	4,0s	Default	None	Full	None
2	iSpring Converter Pro	11,5s	Default	Monique ...	Full	None
3	Getting Started	5,0s	Default	Monique ...	No Sidebar	Background music
4	Create Your Course in PowerPoint	20,0s	Default	Monique ...	Full	Background music
5	hidden Set Up Presentation Structure	13,0s	Default	None	No Change	None

Two callout boxes provide instructions: one points to the 'Slide Duration' field in the toolbar with the text 'Specify duration for the selected slides', and another points to the 'Advance' column in the table with the text 'Click here to change slide duration'.
