

Profile Settings

In the Profile Settings area, you can upload your personal photo and account password.

To open it, click the **Settings** link in the main menu and choose the **Profile** tab.

The screenshot shows the iSpring Cloud interface. On the left is a dark sidebar with the logo and navigation links: 'Content' and 'Settings' (which is highlighted with a mouse cursor). The main content area is titled 'Profile Settings' and has three tabs: 'Account', 'Profile' (which is selected), and 'Billing'. At the top right of the main area is a user profile picture. Below the tabs, there is a blue 'Save changes' button. The main content area is divided into two sections: 'Profile Settings' and 'Change Password'. The 'Profile Settings' section includes a 'Your photo:' label, a circular profile picture of a man, and a text box explaining that the photo is used for identity and that users can upload JPG, PNG, or GIF images with dimensions between 75 and 4000 pixels. The 'Change Password' section contains three input fields labeled 'Current password:', 'New password:', and 'Confirm:'. A note below the first field states, 'Your current password is required to change your password.'
