

# Color Scheme

Under the **Branding** tab, you can easily change the colors of your iSpring Learn account.

 Set up different color schemes for the admin panel and user portal.

1. Choose one of the preset color schemes.

**User Portal Design**

Customize user portal appearance. Select one of the pre-built color schemes below or create your own custom scheme, and upload a logotype.

Color Scheme:  

**Dark blue**

2. If the preset colors do not suit you, choose the colors yourself. Click on the pencil  and select panel background and accent colors.

**User Portal Design**

Customize user portal appearance. Select one of the pre-built color schemes below or create your own custom scheme, and upload a logotype.

Color Scheme:  

**Top navigation menu**

Panel Background  3d7799

Accent Color  ffffff

Customize text and icon colors in the list below

Menu item:

Text Color  c4d8e4

Icon Color  c4d8e4

Select colors for the normal and selected state of texts and items in the **Menu item** menu.

Color Scheme:  

**Top navigation menu**

Panel Background  3d7799

Accent Color  ffffff

Customize text and icon colors in the list below

Menu item:

Text Color  c4d8e4

Icon Color  c4d8e4

Normal
