Editing an Enrollment

Method: **changeEnrollment**

Permissions to Run the Request

Account Owner, *Account Administrators*, *Department Administrators*, *Publishers*, or custom roles.

Department Administrators, *Publishers*, and users with a custom role can edit enrollments assigned to the users from the departments they manage and their sub-departments.

Request Headers

Parameter	Type	Description
credentials (required)	credentials	Read the description of the Credentials object.
enrollmentId (required)	string	The ID of the enrollment you want to edit. You can obtain an enrollment ID with the Getting a List of Enrollments method.
accessDate (required)	dateTime	The date when learners are supposed to start studying the course. If the start date isn't indicated, the current date will be auto-populated.
dueDateType (required)	string	This parameter indicates if the course has a due date or it isn't time-limited. Possible values of the parameter are unlimited, default, due_date, due_period.
dueDate (required)	date	This parameter is required if dueDateType is equal to due_date.
duePeriod (required)	int	This parameter is required if dueDateType is equal to due_period. It is measured in hours.
lockAfterDueDate (required)	bool	This parameter is required if dueDateType is equal to due_date/due_period. It indicated if the access to the course will remain open when the due date expires or will be locked.

Return Value

After the request has been successfully processed, the system returns an object with the following properties:

Parameter	Type	Description
success	bool	True if the enrollment has been successfully edited.

Possible Errors

Type	Description
Unknown Enrollment	The enrollment wasn't found.
Permission denied	The user has no permissions to edit enrollments.
Wrong Parameters	The system failed to process the request because it did not contain all necessary parameters.

Sample Request

```
POST /api/v2/soap/2.0 HTTP/1.1
SOAPAction: "ChangeEnrollment"

<?xml version="1.0" encoding="utf-8"?>
  <SOAP-ENV:Envelope xmlns:SOAP-ENV="http://schemas.xmlsoap.org/soap/envelope/"
                     xmlns="http://ispringlearn.com/go/services/api/soap">
    <SOAP-ENV:Body>
      <ChangeEnrollmentRequest>
        <credentials>
          <accountUrl>http://myaccount.ispringlearn.com</accountUrl>
          <email>email@email.com</email>
          <password>password</password>
        </credentials>
        <enrollmentId>2bbc2ed0-8841-11e9-93c1-0242c0a85016</enrollmentId>
        <accessDate>2019-09-24 10:30:00</accessDate>
        <dueDateType>string</dueDateType>
        <duePeriod>int</duePeriod>
        <lockAfterDueDate>true</lockAfterDueDate>
      </ChangeEnrollmentRequest>
    </SOAP-ENV:Body>
  </SOAP-ENV:Envelope>
```

Sample Response

```
<?xml version="1.0" encoding="UTF-8"?>
<SOAP-ENV:Envelope xmlns:SOAP-ENV="http://schemas.xmlsoap.org/soap/envelope/"
                   xmlns="http://ispringlearn.com/go/services/api/soap">
  <SOAP-ENV:Body>
    <ns1:SuccessResult>
      <ns1:success>true</ns1:success>
    </ns1:SuccessResult>
  </SOAP-ENV:Body>
</SOAP-ENV:Envelope>
```
