

Course Questions

Sometimes, when users are studying a course, they naturally have questions. They may need to clarify details or check some learning process details.

The **Questions and Responses** option will help a student get in touch with the course author and receive feedback.

 By default, this feature is enabled in the account.

The screenshot shows a user interface for a course titled "Vector Graphics Workshop". The course status is "Completed". The navigation menu includes "My Courses", "Events", "Achievements", "Catalog", and "Knowledge Base". The "Questions and Responses (1)" tab is selected, and a "Download Certificate" button is visible. The "Course Questions 1" section contains a text input field for asking questions and a list of one question from Nick Moore, answered by Bella Stone.

Bella Stone ...
First, you need to complete all the courses from Part 1.
