

Settings and Formatting

You can manage appearance of the longread and change its navigation settings. To do this, click **Settings** at the top right corner of the page.

The following parameters are available to edit:

- [Design](#)
- [Navigation](#)

While writing a longread, you can change the text formatting: make it bold or italic, add a link, format the text as a header or a statement, organize it into a bullet or numbered list.
