

Integrations

You can use **Integrations** to explore new possibilities of eLearning in your iSpring Learn account.

The screenshot displays the iSpring Learn Settings interface. On the left is a dark sidebar with navigation options: Dashboard, Courses, Reports, Events, Users, Course Questions, and Settings (highlighted). The main content area is titled 'Settings' and has tabs for Main, Branding, Additional Options, Integrations (selected), and Billing. A notification icon with a red '1' is visible in the top right. Below the tabs, a tooltip points to the 'Integrations' tab. The main heading reads 'Enable additional apps to explore more learning opportunities'. Two integration cards are shown: 'Zoom App for Web Meetings' with a description and an 'Enable' button, and 'User authentication technology (SSO)' with a description and an 'Enable' button.
