

Hiding Slides

You can mark any slide as hidden by clicking the **Hide Slide** button on the toolbar or double clicking its thumbnail.

Hidden slides are not displayed in the outline of the player. They are skipped during presentation playback. Please note that hidden slides still exist in your presentation and can be accessed using hyperlinks or action buttons on the other slides.

The screenshot shows the 'Presentation Explorer' window with a toolbar and a list of slides. The toolbar includes buttons for 'Save & Close', 'Hide Slide', 'Promote/Demote', 'On-Click/Auto', 'Branching', and 'Lock'. The slide list has columns for '#', 'Title', 'Advance', 'Branching', 'Lock', 'Presenter', and 'Layout'. Slide 2 is highlighted in blue and has a 'hidden' label on its thumbnail. Two red callout boxes provide instructions: 'Click "Hide Slide" to hide/show the selected slides' and 'Double-click a slide thumbnail to hide/show a slide'.

#	Title	Advance	Branching	Lock	Presenter	Layout
1			2.0s	Default	None	No Change
2	Animations: Entrance Effects		10.0s	Default	Geoseffe T...	Full
3			8.6s	Default	Geoseffe T...	Maximized Video
4	Animations: Emphasis Effects		18.1s	Default	Geoseffe T...	Maximized Video
5	Animations: Basic Motion Path Effects		19.0s	Default	Geoseffe T...	Full
