- [Manual Activation](#)

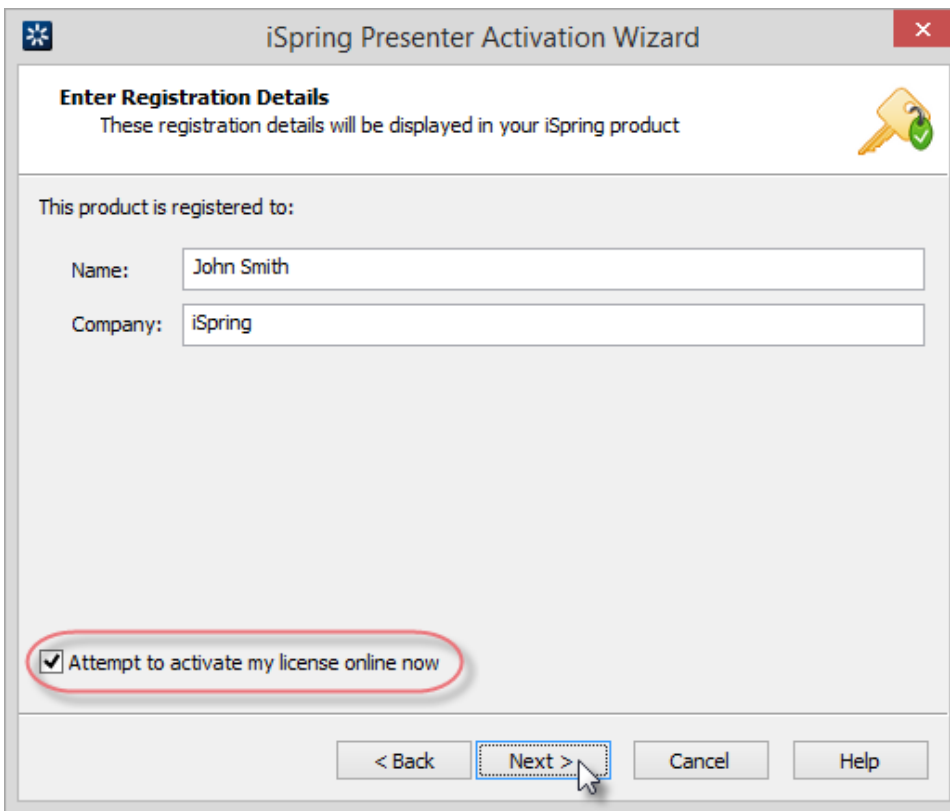

1. If you already have the iSpring Presenter license, enter your license key and click **Next** to proceed with entering **Registration Details**.

To purchase the iSpring Presenter license, click **Purchase Online**.

The screenshot shows the 'iSpring Presenter Activation Wizard' dialog box. The title bar includes a close button (X) and a help icon. The main content area is titled 'Enter License Key' and contains the instruction: 'Copy and paste the license key you received after the purchase of your iSpring license'. Below this is a text input field with a placeholder license key: 'XXXXX-XXXXX-XXXXX-XXXXX-XXXXX-XXXXX-XXXXX-XXXXX-XXXXX-XXXXX-XXXXX-XXXXX-XXXXX'. To the right of the input field is a 'Purchase Online' link. At the bottom of the dialog, there are four buttons: '< Back', 'Next >', 'Cancel', and 'Help'. A mouse cursor is pointing at the 'Next >' button.

2. At the next step, you can specify the user's name and the company name. This information will be displayed in the **About** window of iSpring Presenter.

The image shows a Windows-style dialog box titled "iSpring Presenter Activation Wizard". The window has a standard title bar with a maximize button, a close button (red 'X'), and a small icon on the left. The main content area is titled "Enter Registration Details" and includes a sub-header: "These registration details will be displayed in your iSpring product". To the right of this text is a yellow key icon with a green checkmark. Below this, the text "This product is registered to:" is followed by two text input fields: "Name:" containing "John Smith" and "Company:" containing "iSpring". At the bottom of the main area, there is a checkbox labeled "Attempt to activate my license online now" which is checked. This checkbox is circled in red. At the very bottom of the dialog, there are four buttons: "< Back", "Next >", "Cancel", and "Help". The "Next >" button is highlighted with a blue dashed border and has a mouse cursor pointing at it.

Online Activation

The fastest way to activate the license is to go through the online activation procedure.

To do it, keep the **Attempt to activate my license online now** option checked and click **Next**. Online activation requires an active Internet connection. It usually takes just a few seconds to complete the online activation process.

Manual Activation

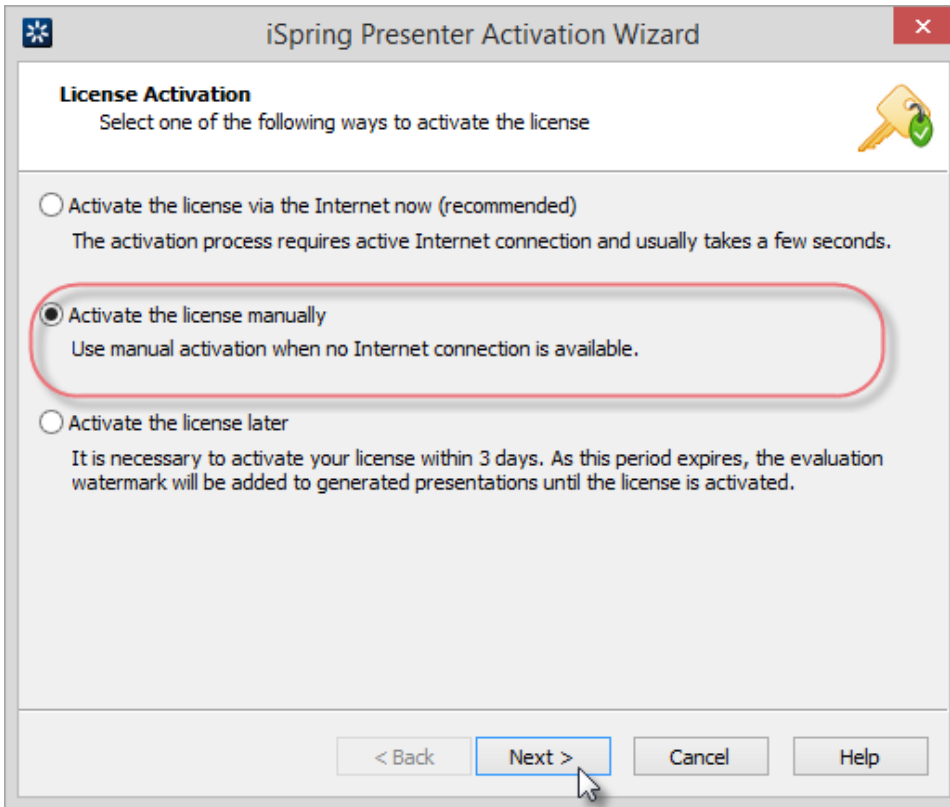

To perform offline activation:

1. Clear the **Attempt to activate my license online now** checkbox, enter your registration information and click **Next**.

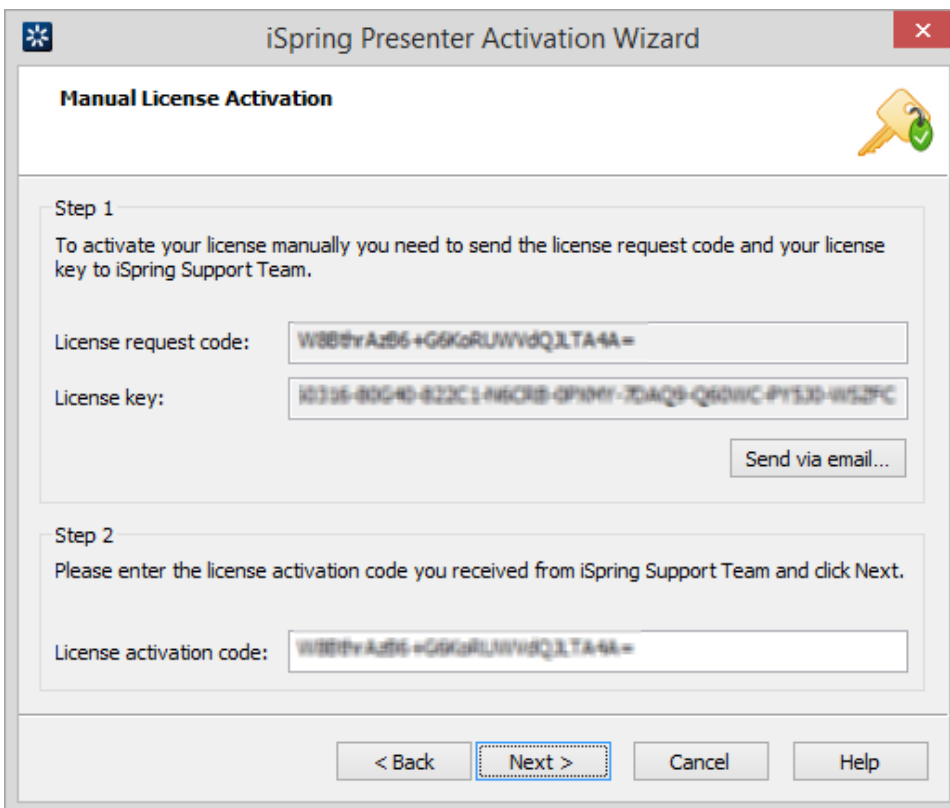

The image shows a screenshot of the "iSpring Presenter Activation Wizard" dialog box. The title bar reads "iSpring Presenter Activation Wizard" with a close button (X) on the right. The main content area is titled "Enter Registration Details" and includes the subtitle "These registration details will be displayed in your iSpring product" next to a key icon. Below this, it says "This product is registered to:" followed by two text input fields: "Name:" with the value "John Smith" and "Company:" with the value "iSpring". At the bottom left, there is a checkbox labeled "Attempt to activate my license online now" which is currently unchecked and highlighted with a red oval. At the bottom right, there are four buttons: "< Back", "Next >" (which is highlighted with a blue dashed border and has a mouse cursor over it), "Cancel", and "Help".

2. Choose **Activate the license manually** and click **Next**.

3. Send a license activation request with your License request code and License key via email to the Support Team. After you receive the License activation code from the iSpring Support Team, paste it into the corresponding field and click **Next**. Manual activation requests are usually processed within one business day.

Activation process should be complete within 3 days after you entered the license key. If the license is not activated within this period, an evaluation watermark will be added to your presentations.

The license activation binds the product to a given computer and its operating system. As the number of the allowed activations is limited, you should [deactivate a previously activated license](#) in case you want to reinstall the operating system or activate the license on another computer. This way you will not lose your activations.
