

# Integrations

You can use **Integrations** to explore new possibilities of eLearning in your iSpring Learn account.

The screenshot displays the iSpring Learn user interface. At the top left is the iSpring Learn logo. In the top right corner, there are icons for a chat bubble and a notification bell. A vertical sidebar on the left contains several navigation icons. The main content area is titled "Settings" and features a horizontal menu with tabs for "Main", "Branding", "Additional Options", "Integrations", and "Billing". The "Integrations" tab is selected and highlighted with a green border, and a mouse cursor is hovering over it, with a tooltip labeled "Integrations". Below the tabs, a heading reads "Enable additional apps to explore more learning opportunities". Two integration cards are shown side-by-side. The first card is for "Zoom App for Webinars and Web Meetings", featuring the Zoom logo and a description: "Create conference rooms with advanced options for communication. Sign up for a paid Zoom subscription to get started." Below the description is a green "Enable" button. The second card is for "User authentication technology (SSO)", featuring a key icon inside a cloud and the text "SSO". Below this is a description: "It allows users to get access to multiple portal sections without having to re-authenticate." and a green "Enable" button.
