

iSpring Learn

Welcome to iSpring Learn Guide!

iSpring Learn is an easy-to-use hosted Learning Management System (LMS). It allows you to deploy distance learning in your company in a matter of hours. With numerous reports available in iSpring Learn LMS, you can get accurate and reliable data to evaluate the effectiveness of your training program.

The screenshot displays the iSpring Learn LMS interface. At the top, there is a dark navigation bar with a green logo on the left, and icons for email, notifications, and a user profile on the right. Below the navigation bar, there are five menu items: 'My Courses', 'Events', 'Achievements', 'Catalog', and 'Knowledge Base'. The main content area features a large banner image of a desk with a notebook and a whiteboard. Below the banner, the 'My Courses' section is visible, with two tabs: 'Enrolled' (selected) and 'Completed'. To the right of the tabs, there is a dropdown menu set to 'By Due Date' and a search bar labeled 'Search...'. Two course cards are displayed below the search bar. The first card is for 'Sales Onboarding', which includes a thumbnail image of a desk with a yellow mug, a laptop, and a water bottle. The course details are: 6 minutes, 6 modules, 1 question, and a Completion Certificate. The progress bar shows 'In Progress (83.33% viewed)'. The second card is for 'Business Sustainability', which includes a thumbnail image of a modern building. The course details are: Course. The progress bar shows 'In Progress (14% viewed)'.

However, iSpring LMS doesn't put any limitations on your authoring tool choice. Along with the iSpring-made courses, presentations, and quizzes, you can publish the following content types to iSpring LMS: iSpring Learn is tightly integrated with iSpring Suite, a course authoring toolkit. You can create your e-Learning content with iSpring Suite and upload them in one click to the iSpring LMS.

- SCORM 1.2 and 2004 (all editions)
- Video (.FLV and .MP4)
- Audio (.MP3)
- Documents (.DOC, .XLS, .PDF)
- PowerPoint Presentations (.PPT)
- Flash movies (.SWF)

Also, you can create such content types as [learning tracks](#), [courses](#), [assignments](#), [pages](#), and add [web links](#) to external resources.

You can access the LMS content from any browser including mobile devices.
