

Adding Assignment

To add a homework assignment:

1. Open your course, select the **Outline**, click **Add**, and choose **Assignment**.

2. In the **New Assignment** window, add the assignment title, description, and instructions and set the passing score. Click the **Create** button.

The screenshot shows the 'New Assignment' form. It has a title field with the text 'Create a Landing Page'. The description field contains the text 'You need to set up a fully-functional landing page for any product or service you like.'. The instructions field contains the text 'When completed, send a ZIP-archive to nick.moore@ispringsolutions.com'. The passing score field is set to '90' with a range of '1 - 100%'. At the bottom right, there are 'Cancel' and 'Create' buttons. A mouse cursor is pointing at the 'Create' button.

3. That's it! The assignment is added to the course and you can manage it like any other content item.

Part 1

First Part of the Course

Attract New Customers. Boost Your Sales

Type description ...

Create a Landing Page

You need to set up a fully-functional landing page for any product or service you like.
