# Deactivating iSpring Suite License

A one-seat license of iSpring Suite allows two activations of the product. For example, it can be installed on your work computer and on your home laptop. If you want to move iSpring Suite to another computer or reinstall the operating system on your PC, you need to deactivate the license. You can either deactivate a license without removing the software from your computer or uninstall and deactivate your iSpring Suite.

- Activation Wizard
- Uninstalling iSpring Suite

Activation Wizard

It is possible to deactivate your license without uninstalling iSpring Suite. Perform the following steps:

1. Launch the Activation Wizard from the program menu folder.

2. Choose **Deactivate the license** and click **Next**.

iSpring Suite Activation Wizard ×

License Activation Settings
Select one of the options below to manage license activations

○ Enter another license key or registration info

Choose this option if you want to activate your product copy using a different license key or change the registration info.

◉ Deactivate the license

Your license will be deactivated, and you will be able to activate iSpring Suite on another computer.

[< Back] [Next >] [Cancel] [Help]

3. Select **Deactivate my license** and click **Next**.

iSpring Suite Activation Wizard ×

License Deactivation
The license you are going to deactivate is displayed below

Name: John Smith
Company: iSpring
License Key: 2HRRQ-0R13D-48G44-573HH-H2XGB-1AK7V-QE52H-C22GA-7N8F3-N3NC4

☑ Deactivate my license

Check this option to deactivate the license on this computer.
You will be able to activate your license later on this or another computer.

The deactivation process requires active Internet connection and usually takes a few seconds.
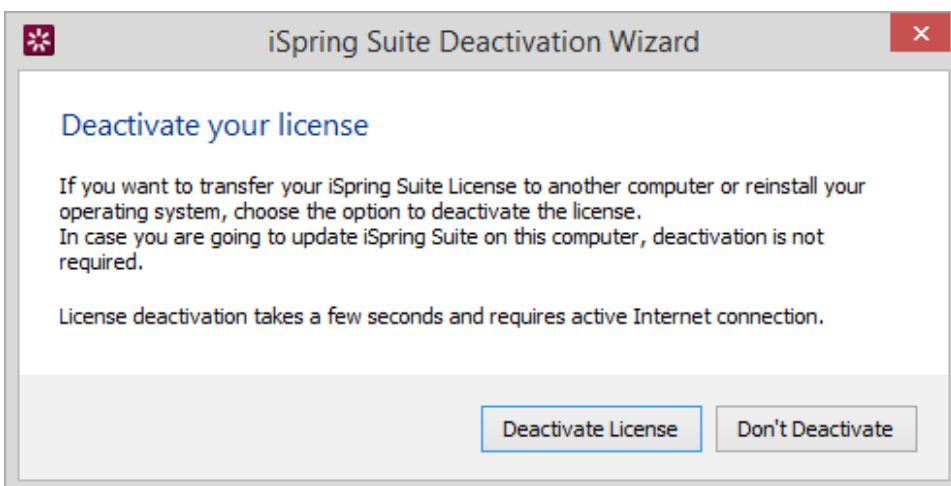

[< Back] [Next >] [Cancel] [Help]

After successful deactivation, the Activation Wizard will display the number of the remaining activations out of the total number of activations.

Uninstalling iSpring Suite

To uninstall your iSpring Suite:

1. Go to the Windows Start menu -> Control Panel -> Programs. Choose the Uninstall a program option. Then, select the application you want to remove.
2. When uninstalling iSpring Suite, please choose the **Deactivate my license** option in the Deactivation Wizard. Your license will be deactivated, and you will be able to activate iSpring Suite on another computer.

3. After successful deactivation, the program will display the number of remaining activations and the total number of activations.
