

Getting Started with iSpring Suite

iSpring Suite is a versatile e-Learning authoring tool that allows to create a variety of e-Learning content types, ranging from e-Learning courses and quizzes to interactions. All this is easily created right in PowerPoint. iSpring includes all the capabilities of iSpring Presenter. Moreover, you can take advantage of using the integrated iSpring Visuals.

- [Quick Start](#)
- [Adding New Elements to PowerPoint Presentations](#)
- [Publishing PowerPoint Presentations to Flash and HTML5](#)

Quick Start

From this window, you can instantly launch either PowerPoint, built-in iSpring QuizMaker or iSpring Visuals and start creating e-Learning courses, quizzes or interactions.

Should you have any question, you can watch Video Tutorials, visit Community Forum, Knowledge Base or go right to the Support center.

iSpring Suite is a PowerPoint add-in, and it appears as an additional tab on the PowerPoint ribbon.

Adding New Elements to PowerPoint Presentations

Once you install iSpring Suite, you can enhance your PowerPoint presentations with the following types of media, resources and e-Learning content:

- [Flash movies](#)
- [YouTube videos](#)
- [Web Objects](#)
- [Quizzes](#)
- [Interactions](#)
- [Characters](#)
- [Background audio and voice-overs](#)
- [Video narrations](#)
- [Presenter info](#)
- [External resources](#)

Publishing PowerPoint Presentations to Flash and HTML5

When your PowerPoint presentation is ready for publishing, you can convert it to Flash and HTML5. iSpring Suite gives you control over the following options:

- [General Options](#)
- [Playback and navigation](#)
- [Compression of media elements](#)
- [Advanced parameters](#)
- [Content protection](#)
- [Learning Course parameters](#)

Click on the **Publish** button to configure output options and convert your presentation to Flash and HTML5.
