

# Recording Audio

You can record audio narrations by reading aloud your text notices or any other verbal announcements and synchronizing them with your slideshow. Just click the **Record Audio** button to launch the Record Audio Narration wizard.

To record an audio narration:

1. Choose the slide where you would like to record audio narration from the drop-down list of slides.
2. Click **Start record** to start recording your audio narration.
3. Click **OK** to apply the changes or **Cancel** to quit Record Audio narrations without saving any changes.
