

# Branding

Under the **Branding** tab, you can set up the appearance of the admin and user portals.

The screenshot shows the 'ispringlearn' branding settings interface. At the top, there's a navigation bar with the logo, a chat icon, a notification bell, and a user profile. Below this is a 'Settings' section with tabs for 'Main', 'Branding', 'Additional Options', 'Integrations', and 'Billing'. The 'Branding' tab is active, highlighted with a green border and a hand cursor. A tooltip labeled 'Branding' is visible over the tab. The main content area contains instructions: 'Here you can choose the color scheme and logotype for the user and admin portal and add a favicon.' To the right of this text are two buttons: 'User Portal' (with an eye icon) and a green 'Save' button. Below the instructions is a 'Color scheme' section with the text: 'Customize the design of the user and admin portals. Choose from premade color schemes or create one of your own.' At the bottom, there's a 'Color Scheme:' label followed by a row of ten color swatches: white, black, dark blue, light blue, green, grey, orange, red, and purple. To the right of these swatches is an edit icon (a pencil inside a square).
