# Enabling Account Notifications

To set up notifications for learners and administrators, go to the **Settings** section, open the **Additional Options** tab and then click **Notifications**. By default, all notifications are enabled, but you can disable any of them if you want.

1. Go to **Settings** and open the **Additional Options** tab.

2. Then scroll down to **Extra Options** and click **Notifications**.

3. To enable or disable a notification, drag the toggle button to the right or to the left.
