SOAP API

The SOAP API provides access to most iSpring Learn functions.

View the api_2.0.wsdl or api_3.0.wsdl file to get access to the data about the iSpring Learn LMS.

iSpring Learn Server Version

If you have a server version of iSpring Learn, download the WSDL file for the SOAP API from your iSpring Learn account.

To download the file, add **https://your account domain/downloads/api_2.0.wsdl** to your account URL.

> Suppose that your iSpring Learn domain is lms.company.com. In that case, you would download the file that is stored here: **https://lms.company.com/downloads/api_2.0.wsdl**.
